A National Tragedy

Here is a tragic situation. In China, through drought and flood, 2,750,000 human beings are starving and will perish this spring and summer if relief does not come. In Canada food stuffs worth millions of dollars are spoiling because the crops were too heavy for the railroads to ship to the east. And this is happening while the Chinese nation is in the agony of a new political birth. Has the world ever beheld such an appalling need as in China, or so urgent a call for "first aid" to the suffering as that which comes to Canada? The facilities for shipping grain westward to the Pacific have been given to China as a means for sending its surplus from the west and to send it where it is so sorely wanted is our first and most compelling duty. In how many ways will it come back to us as individuals and as a nation? The United States, alone among the nations, reminded a large part of the world, before rebelling independently on condition that the money be spent on the education of Chinese students in the United States colleges and universities; and already the American nation is reaping a reward in the confidence and good will of the people of China, who now have a thousand students in the United States who will return as missionaries of international good will. This generosity is being kept alive by the American people, whose charities are now appealing for money and who are to send to the relief of the famine victims. The Chinese are a grateful people, and no movement of such a human kind will go unrewarded here and henceforward.

With such a glut of grain and a more general prosperity than exists in the United States, what are people of Canada going to do? China is in the center of world reformation today, and the real yellow peril is not an educated and progressive China, but a China remaining in poverty, ignorance and spiritual darkness. In any case Canadians can make no mistake in relieving distress of such an unparalleled extent, no matter how political events may shape. To stop our ears to this cry of woe is to invite calamity to our own doors, for the law of compensation is still in force, nor should we forget that a country's harvest is a gift to the world.

Therefore, let our government and people unite immediately to send liberal supplies of wheat, oats, flour, and animal food; and follow this up later with scientific advice and help in forest restoration, flood prevention and improvement in agricultural methods, the lack of which has brought the present trouble.

Last year 55 delegates representing various chambers of commerce in the United States visited China and were received with a warm welcome by Chinese commercial bodies, and American and Chinese scientific men, merchants and manufacturers are already cooperating for the improvement of China's material as well as moral condition. Geographically, Canada, with the United States stands as the mediator by which the civilizations of Europe and Asia can be harmonized for the peace of the world, and there has been no time when the white winged seed of opportunity waited to invite us to fill the great office as it does today.

Will press, and people, and parliament take it up?

Canadian School of Musketry

An announcement has recently been made from militia headquarters at Ottawa relative to the attendance of school teachers at the Canadian school of musketry. The attention of teachers is called to the following extracts from the order which supersedes the conditions formerly in force.

(a) School teachers who have attended a school of military instruction and have obtained instructors certificates will be admitted to the course of the Canadian School of Musketry. In considering applications from school teachers for admission to these courses preference will be given to those engaged in educational institutions having organized cadet corps.

(b) Applications for admission will be forwarded in the usual manner through the officer commanding division or district and will give the name of the college or school in which the applicant is employed and of the cadet corps with which he is connected.

Further particulars relative to this matter may be obtained from Col. Cruckshank, D. O. C., Calgary.

SERIOUS CONSEQUENCES OF COAL STRIKE IN BRITAIN

England Begins to Realize What the Big Strike Means—Reduction of Railway Service Brings Situation Home to the Public

London.—London has begun to realize what the prolongation of the coal strike may come to mean. Reduction of railway service by some 300 trains brought the seriousness of the situation home to the huge travelling public of the metropolis.

No coal trains are running whereas in normal times over a million tons of coal are being transported throughout the country, representing receipts to the railway of about \$400,000.

A quarter of a million of men, besides those directly employed in the mining industry are already out of work.

The miners themselves are looking upon the strike which is purposing its final continuance with Premier Asquith described in the House of Commons as a "National catastrophe" as a junket and are making trips to the seaside, going to football matches, dancing, and taking long summer holidays and otherwise making a holiday.

Mr. Asquith's statement caused considerable change in public opinion on the coal strike. The papers of the radical papers are blaming their refusal to accept the government's just and reasonable offer.

It is now realized that the action of the Asquith cabinet is judged far less favorably by conservative opinion on the continent than it is in this country.

In England the strike must be

made to fit what means are em-

ployed.

The Paris *Temps* on the other hand takes the view that the British government is committing the country towards a species of social

abolitionism which is repugnant alike to reason and justice.

"What has become of the spirit of real liberalism, the only way to determine whether the Government fully to test the efficacy of the existing laws to deal with the latest tactics of the militant suffragettes, before re-enacting old legislation and making the funds of suffragettes available for the damage done by the members, the police raided the offices of the Liberal and Political Union in Caxtons Inn, London, and seized Mr. and Mrs. Frederick Pethick-Lawrence, joint editors of 'Votes for Women,' who were in the Bow Street police station. The police had a warrant for the arrest of Miss Christabel Pankhurst, but did not find her there, but, however, she was taken into custody.

They took possession of the offices

with responsibility for the last

strike and the suffragette campaign.

They will presumably be tried under thespiracy law."

Members of the Union declared that they were not desirous of getting hard labor sentences upon those convicted of taking part in the recent demonstrations, and in arresting the leaders, will only produce a bigger crowd of supporters for the suffragette cause.

A call is already being made upon every citizen for the strictest economy.

Berlin.—The strike fever is now rampant in Germany. Walking men are seen in the famous Schild-
kampf warship building yards. At Danzig thousands are on the verge of a strike in the clothing trades. 2,000 sailors also are threatening to strike. In the paper box industry, and chances highly favor the outbreak of an enormous strike in the Rhine-Westphalia region. The strike, involving 250,000 men. Fifteen per cent advance in wages is demanded.

The federation officials announced from their headquarters that the impeding strike in Germany is not intended as a sympathy strike in behalf of their English brethren but as a movement begun in the German trade unions.

The strike is now at the psychological moment.

Navigation Association Holds Big Convention in Grand Forks, N.D.

Grand Forks, N.D.—The president of the masters of cities and towns in the Red River Valley held here, the Hudson Bay Navigation Association was successfully hosted. The object of the meeting was to secure recognition of the importance of the Red River as a possible waterway out of the very heart of the northwest.

He also predicted that the time would come when the bulk of the wheat grown in Minnesota and the Dakotas would be shipped to Europe via Winnipeg and the Hudson Bay.

Mayor Waugh of Winnipeg addressed a banquet on the subject of Red River navigation. In his concluding address he showed, by statistics, that the Red River—Hudson Bay route to Liverpool is 1,000 miles longer than that of the great lakes.

He also predicted that the time

would come when the bulk of the wheat grown in Minnesota and the Dakotas would be shipped to Europe via Winnipeg and the Hudson Bay.

Westcott News

W. L. Wilber has moved onto the Martin farm.

Mrs. Hughes has returned home from a lengthy visit in the east.

Ed. Tarver has again commenced threshing after a month's vacation.

Miss E. Doman has returned from a visit to Red Deer and points north.

We are sorry to learn of the severe illness of Mrs. D. Kinek and hope for a speedy recovery.

Edna Vipont, who had her arm fractured by a fall from a horse, is progressing favorably.

Mr. F. Berscht's sale is over and was quite satisfactory considering the disagreeable day it happened to strike. He will move to Alsask this week.

E. B. Hunsperger was a large purchaser of horses and cattle at Herber's sale recently.

Tom Murphy has commenced the building of a large barn.

We understand there has been another threshing outfit ordered by a syndicate west for next season's crop.

Since J. Weidner has made such a success of poultry farming, we understand that Ed. Tarver has decided to raise hen fruit. If you have roosters for sale drop him a post card or try an ad. in the Pioneer.

Mr. Farmer—do you want the best implements and machinery that money can buy at prices that are right? You can get them, also a square deal, at the Meany Harris agency, Didsbury.

The Westcott branch of the United Farmers of Alberta held a very successful and instructive meeting the other evening. Several new members were enrolled and some very interesting discussions took place. Foremost of the questions discussed were the proposed government pork packing plant and the U. F. A. flour mill scheme. As detailed information was lacking the secretary was instructed to write to the central office and get all information and literature bearing on the two schemes so that at the next meeting the matter can be thoroughly discussed and digested. The information from central office on what the government have definitely decided to do in the matter of the hair insurance was greatly welcomed and applauded. If you want to hear about the government pork packing plant and the proposed flour mill scheme and enjoy a pleasant evening listening to and taking part in the at times very animated discussions, come along at 8 p. m. on Friday, March 29th, to the Westcott schoolhouse. Everybody is welcome. Farmers, get interested; we are growing; we meet to protect ourselves and you. Come along and lend a hand. If you are not for us you are against us.

Many sufferers from rheumatism have been surprised and delighted with the prompt relief afforded by applying Chamberlain's Liniment. Not one case in ten requires any internal treatment whatever. This liniment is for sale by all dealers.

BUSINESS LOALS

FOR SALE—Two nice 50ft. lots, No. 13 & 14, Block 12, the best residential part of Didsbury for \$300. Address 456 Innisfail.

If your present glasses do not give you entire satisfaction that is why you should consult M. Meeklenberg A. M. the eminent eye specialist for giving absolute satisfaction to such cases as yours that he has made his reputation. A word to the wise is sufficient. Will again be at the Alexandra Hotel Didsbury on Thursday, April 4th.

A car load of seed oats will arrive soon. Government test, 92 per cent. Price 35c per bushel in sacks of 50 bush. car. Terms cash. Order at once. Maple Leaf Ltd.

The harvest depends very largely upon seed time. The new No. 11 Massey-Harris drill was built especially for Alberta and will do your work well under all conditions.

Will the party who Mr. J. C. Stevens saw picking up a packed book north of the Union Bank doors on Friday afternoon, March 1st, please return to postoffice and receive reward.

Most people die from a break-down of some part of the system, very few from a ripe old age. This is not the case with the new No. 11 Massey-Harris drills, as those who use them say they are very strongly built, doing their work uniformly and well and standing very hard usage.

AROUND THE TOWN

A small fire started at the Evangelical church on Thursday night last just as the congregation had left after the services. Some misap with the gasoline lighting apparatus was the cause. The fire was put out by a small hand extinguisher by Mr. L. Snyder. The fire laddies responded in very quick time with the engines but fortunately the fire was out before they arrived.

It's funny when you hear about it. The visitors from this district returning from Ontario all complain of the cold weather they experienced, while up here in Sunny Alberta we have had to take off our coats some days in the last six weeks. One lady reports having her face frozen while there, something that never happened to her here in a 20 year's residence in the west.

The death of Mrs. A. V. Buckler occurred at Calgary on Sunday last at the age of 30 years. Mrs. Buckler is a sister of Mac. Ryckman, Mrs. B. P. Dick and Mrs. H. Levagood, all of this district, and also leaves a mother and father and two brothers in B. C. Mr. Buckler, who is left with a family of six small children, will have the deep sympathy of a large number of friends in the district. The funeral took place on Wednesday afternoon at the Didsbury cemetery and

Do not miss the next

Ladies and Gentlemen: Are you musical or are you not? Very few of you will admit that you are not musical.

Then if you are musical do not miss the "Treat of the Season" at the Didsbury opera house on

FRIDAY, MARCH 15th

when the

"Royal Male Quartette"

will dispense the best songs and music ever heard in Didsbury.

Their repertoire is almost inexhaustible. If you cannot come on yourselves and your children, Teach them to enjoy the love of good music and you will go a long way toward smoothing the rough places in life for them.

The concert to be given by the ROYAL MALE QUARTETTE is the fourth number of a series of high class entertainments arranged by the Midland Lyceum Bureau and guaranteed by twenty of the business men of Didsbury, who have the education and entertainment of their friends at heart.

The fifth and last number of the series will be given by Mr. Ford, the Cartoonist. Mr. Ford is a prince of Cartoonists, is employed by the New York Sun at a salary of \$10,000 a year, and draws crowded houses wherever he is known.

This entertainment will be another treat that we cannot afford to miss.

So far these entertainments have not been a success financially, one man, to the met that they were not advertised. May I ask you all to boost the two numbers.

Yours faithfully,

H. B. ATKINS.

was very largely attended, the local lodge of the I. O. O. F., of which Mr. Buckler is a member, attended the funeral.

Mr. Chambers, superintendent of the Presbyterian Sunday school, recently offered four prizes, one for each grade, to the pupils writing the best essay on "The Boyhood of Christ." The essays were exceptionally well written, and after careful deliberation, the prizes were awarded to the following scholars: Grade 1, Vera Sexsmith; grade 2, Fred Osmond; grade 3, Pearl Mortimer; grade 4, Peter Wood. The prizes were books, Bible stories, some of which were beautifully illustrated.

Bad fire at Acme

Acme, March 12.—In a fire which has all the earmarks of being an incendiary, Acme, Alberta, was a most wiped off the map at an early hour on Tuesday morning. Building owned by the Merchants Bank, A. R. McHugh, the Acme hotel, A. Coulter's shop, E. J. Colton's general store, the post office, the public pool hall, the hotel, the pool hall and between the hotel and pool hall when discovered at 3 o'clock in the morning had made big headway.
